

LITTORAL 2008 THURSDAY 27th November

ORAL SESSIONS

Sala San Giovanni								
chair	Pierpaolo Campostrini							
8.30 - 9.00		PLENARY LECTURE 4	Mediterranean climate change scenarios: Impacts on the North Adriatic coast, Piero Lionello University of Salento					
9.00 - 9.30		PLENARY LECTURE 5	EU Policies and ICZM implementation in Europe: furthering and measuring sustainability - H.P.M. Salman EUCC					
Sala San Giovanni								
chair	Giampaolo Di Silvio	Sala Verde	George Umgiesser	Sala Albergo	Sala Stucchi			
9.30 - 9.45	15	T7.37 A scenario analysis using Bayesian Belief Networks to simulate eutrophication in Europe's regional seas <u>Alison J. Gilbert</u> , Jan Vermaat, Laurence Mee, Chris Lowe, Abigail McQuatters-Gollop	95	ICZM - EU	T6.1 Transboundary nutrient transports in the North Sea: the role of an ecological model for management purposes - Anouk Blauw, Hans Los, <u>Nicki Villars</u>	66	SPICOSA - Integrating science and policy	WS INSPIRE
9.45 - 10.00	15	T7.38 How can we cope with eutrophication and bacterial contamination regarding coastal lagoons management and planning: insights from the Thau lagoon case study (France)? - <u>Sébastien Rousselet</u> , Thierry Laugier, Valérie Dérolez, Cédric Bacher, Rémi Mongruel	186		T6.2 Managing Baltic Sea eutrophication: Efficiency of nutrient load reductions in river basins - <u>Gerald Schemewski</u> , Thomas Neumann, Horst Behrendt	19		
10.00 - 10.15	15	T7.39 Phytoplankton community in the Lagoon of Venice: present conditions, pluriannual trends and anomalies, and functional role - <u>Alessandra Pugnelli</u> , Francesco Acri, Fabrizio Bernardi Aubry, Franco Bianchi, Elisa Camatti, Giorgio Socal	88		T6.3 Integrated management of streaming waters from littoral zones for the protection of coastal marine biodiversity - <u>Maurice Aubert</u>	249		
10.15 - 10.30	15	T7.40 Microbial Source Tracking - <u>Andrew Wither</u> , Jonathan Porter, Andy Gawler	16		T6.4 Coastal lagoons: "transitional ecosystems" between transitional and coastal waters - <u>Angel Pérez-Ruzafa</u> , Concepción Marcos, Isabel María Pérez-Ruzafa	183		
10.30 - 10.45	15	T7.41 Biological resources and threats to their quality in the littoral zone of the South eastern Baltic - <u>Elmira Boikova</u> , Zane Dekere, Uldis Botva, Irina Kulikova, Zinta Seisuma	240		T6.5 Physiographic and mesological zonation of the lagoon of Venice - <u>Davide Tagliapietra</u> , Grete Frangipane, Michol Grezzo, Alessandro Sarretta, Marco Sigovini, Georg Umgiesser, Veronica Zanon, Stefano Guerzoni	128		
10.45 - 11.00	15	T7.42 Jellyfish strandings: a means of predicting distribution patterns for Leatherback turtles in Pembrokeshire, UK - <u>Rhian E. Jenkins</u> , Jennifer L. Donaldson	169		T6.6 Climate Change and Impacts on Coastal and Water Management in Mediterrean and Tropical Zones - <u>Magdalena A.K. Muir</u>	223		
11.00 - 11.30	COFFEE BREAK							
chair	Giampaolo Di Silvio	Sala Verde	George Umgiesser	Sala Albergo	Sala Stucchi			
11.30 - 11.45	15	T7.43 ICZM of coastal lagoon complexes: The case of Porto Lagos (Greece) - <u>Panayotis Panayotidis</u> , Christos Anagnostou, Sotiris Orfanidis	70	ICZM - EU	T6.7 Typology of transitional coastal waters in the archipelago coast of SW Finland - <u>Harri Tolvanen</u> , Tapio Suominen, Risto Kalliola	107	SPICOSA - Integrated Assessment and System Modelling	ENCORA PR
11.45 - 12.00	15	T7.44 Coastal Action Plan for Nador, a bottom-up ICZM process leading to community agreement and action - <u>Pedro Fernández Bautista</u> , Carolina Pérez Valverde, Abdellatif Khattabi	91		T6.8 Ecomorphology and ecological quality in European transitional waters - <u>Jean-Paul Ducrotov</u>	215		
12.00 - 12.15	15	T7.45 Complex Estuary Restoration Project in Lesconil France - <u>Klavs Bundgaard</u> , Nicholas Grunnet	60		T6.9 Seafloor mapping of shallow waters using multi- and hyperspectral remote sensing data - <u>Heege Thomas</u> , Pinnel Nicole, Kobryn Halina, Heblinski Joerg, Schmieder Klaus	201		
12.15 - 12.30	15	T7.46 Cultural landscapes: planning for a brighter future in The Wash - <u>Tammv Smalley</u> , Adam Partington	118		T6.10 A challenge in wastewater management: technologies and biomonitoring tools - <u>Giovanni Libralato</u> , Francesco Avezzù, Chiara Losso, Pella Roberto, Annamaria Volpi Ghirardini	135		
12.30 - 12.45	15	T7.47 Managing Tidal Change - <u>Natasha Barker</u>	250		T6.11 Think global, value local: substitution and site specific characteristics in estimating benefits from the WFD - <u>Marije Schaafsma</u> , <u>Alison J. Gilbert</u>	94		
12.45 - 13.00	15	DISCUSSION			T6.12 Environmental quality assessment of the lagoon of Venice: implementation of the Water Framework Directive - <u>Christian Micheletti</u> , Andrea Critto, Stefania Gottardo, Sara Chiarato, Jonathan Rizzi, Antonio Marcomini	24		
13.00 - 14.30	LUNCH + POSTER SESSION							
Sala San Giovanni								
chair	Albert Salman							
14.30 - 15.00	30	PLENARY LECTURE 6	Marine spatial planning and more: The new Integrated Maritime Policy of the European Union - P. Nemitz EU Commission					
Sala San Giovanni								
chair	Carl Amos	Sala Verde	EUCC Council	Sala Albergo	Sala Stucchi			
15.00 - 15.30	30	T8.1 Estuary and inlet morphodynamics and evolution - <u>Ian Townend</u>	297	ICZM - EU	EUCC Council	WS ICAN	EUROCOAST	
15.30 - 15.45	15	T8.2 Planimetric and bathymetric morphological evolution of tidal lagoons - <u>Giampaolo Di Silvio</u> , Chiara Dall'Angelo	4					
15.45 - 16.00	15	T8.3 Modelling fluxes of water and sediment between the Venice lagoon and the sea - <u>Christian Ferrarin</u> , Cucco Andrea, Georg Umgiesser, Carl L. Amos	127					
16.00 - 16.15	15	T8.4 Tidal prism variation in Venice lagoon over the last 70 years - <u>Georg Umgiesser</u> , R. Hellsby, Carl L. Amos, Christian Ferrarin	225					
16.15 - 16.45	COFFEE BREAK							
chair	Carl Amos	Sala Verde	EUCC Council	Sala Albergo	Sala Stucchi			
16.45 - 17.00	15	T8.5 Measurements of bed-load sand transport in Chioggia inlet, Venice Lagoon - <u>Monique Villatoro</u> , Carl L. Amos, Georg Umgiesser, Christian Ferrarin, D. Are	236	ICZM - EU	EUCC Council		EUROCOAST	
17.00 - 17.15	15	T8.6 Foraminifera and sediments of the Lido Inlet: a comparative study 2006-1983 - Alberto Albani, <u>Sandra Donnici</u> , Rossana Serandrei-Barbero, Georg Umgiesser	139					
17.15 - 17.30	15	T8.7 Tidal inlet stability and recent morphological evolution of Cuckmere Haven, East Sussex, UK - <u>Alun Williams</u> , Richard Swift, Nick Cooper, Daniel Leggett	172					
17.30 - 17.45	15	T8.8 Coastal protection of the Venice lagoon - <u>Giovanni Ceconi</u> , Stefano Libardo	78					
17.45 - 18.00	15	T8.9 Quantification of erosion/sedimentation patterns to trace the natural versus anthropogenic sediment dynamics - <u>Vera Van Lancker</u> , Michael Fettweis, Jaak Monbaliu, Toon Verwaest, Magda Vincx	117					
18.00 - 18.15	15	T8.10 Sediment budget in the Lagoon of Venice - Alessandro Sarretta, Emanuela Molinaroli, <u>Stefano Guerzoni</u> , Giorgio Fontolan, Simone Pillon	136					

LITTORAL 2008 THURSDAY 27th November

POSTER SESSIONS

T2.8	Multiyear changes of the natural, accumulative dune coast. Swina Gate sandbar, Poland - Tomasz A. Labuz	213	T6.1	The assessment of ecological quality status of the Antalya Bay and Duden River estuary - Gonul Tugrul Icemer, Bulent Topkaya	97	T7.13	Pre-industrial and industrial environmental evolution of the Augusta harbour (Sicily, Italy). Pollution degree and ecological response - Elena Romano, Luisa Bergamin, Maria Grazia Finoia, Chiara Maggi, Giulio Sesta, Antonella Ausili	44
T2.9	Airborne remote sensing as a tool to study coastal sediment dynamics - Bart Deronde	289	T6.2	An ecological model for fish habitat classification in the Venice lagoon - Anita Franco, Matteo Zucchetto, Piero Franzoi, Patrizia Torricelli	293	T7.14	Coastal Management and Sustainable Coastal Cities, connecting theory to practice - Marinez Scherer, Milton Asmus, Martinus Filet, Manuel Sanches, Antônio Poleti	120
T2.10	GEO-ENVIRONMENTAL UNITS ZONING OF ALBANIA COAST 1:200.000 SCALE - Ç. Durmishi,	86				T7.15	The North Caspian: divide and exploit, or unite and save? - Elena Ostrovskaya, Olga Zornikova, Alexander Aldabaev	158
T2.11	GEO-ENVIRONMENTAL SUB-UNITS ZONING OF SARANDA COASTAL AREA AT 1:50.000 SCALE (ALBANIA)	102				T7.16	Numerical Study of the Efficiency of Low Head groins - Christopher Koutitas, Achilleas Samaras	129
						T7.17	Perception of coastal vulnerability to erosion of the French coast of the Eastern English Channel and the North Sea (France) - Flanquart Hervé, Deboudt Philippe, Hellequin Peggy, Deldrève Valérie	140
						T7.18	Distribution and origin of polycyclic aromatic hydrocarbons in two Moroccan lagoons: Moulay Bouselham (Atlantic) and Nador (Mediterranean Sea) - Abdelghani Semlali, Abdelghani Chafik, Samir Benbrahim, Mohammed Talbi, Hélène Budzinski	150
						T7.19	Outcome of public participation in small islands - coastal management plans - Andrea Botelho, Helena Calado, Goretti Lameiras, Bruno Rangel	204
						T7.20	The characteristics of recreation at the Alanya beach, Turkey - Aynur Arslan, Selcuk Sayan	205
						T7.21	Scour hole development, the effect of cohesive and non-cohesive layers, land reclamation Maasvlakte 1 & 2, Port of Rotterdam - Albert van den Berg, Tiedo Vellinga	206
						T7.22	Clean(ing) coastal waters for tourism - Holger Janßen, Nardine Stybel, Stefanie Maack	211
						T7.23	The sociobiology as support to the ecological crisis and of the environmental emergency - Giovanna Acampora, Marina Maura Calandrelli, Clelia Cirillo, Luigi Scarpa, Ugo Zannini	231
						T7.24	Human impact in an urban coastal zone: the case of Palermo gulf - Gaetano Ferruzza, Franco Andarolo, Lucia Fallo, Gianfranco Scotti, Fabrizio Vaccaro	252
						T7.25	Understanding the importance of cultural heritage in ICZM: customary management & tenure of coastal resources in Timor-Leste - Lara Wever	265
						T7.26	Integrated environmental communication management for coastal regions - Raimonds Ernšteins, Alda Ozola-Matule, Erika Lagzdina	287
						T7.27	The Pontino nourishment work along Regione Latium's beaches - Paolo Lupino	290
						T7.28	Methodology to establish environmental mixing zones for outfall discharges in coastal waters based on a holistic approach - Alexandre Freire, José António Juanes, José António Revilla, Xabier Guinda, Kalin Koev,	294
						T7.29	SPICOSA System Approach Framework - Local application: sustainable management of clam Tapes philippinarum in the Lagoon of Venice - D. Canu, S.Dalla Riva, P.Campostrini, C. Solidoro, D. Brigolin, L. Rossetto	299
						T7.30	MICROBIOLOGICAL COASTAL SITE QUALITY ASSESSMENT IN KONYAALTÍ AND LARA BEACHES, ANTALYA - Gonul Tugrul Icemer, Aysegul Topaloglu	98
